PERSONAL PROJECTS

Hexel — Puzzle game

My first published project, Hexel reached 200,000 players from 163 countries on iOS, Android, and the web

FaceFuse — AI-powered face blender

An app that uses machine learning and Nvidia's StyleGAN library to combine two people's faces.

Word Surge — Word game

My most recent game, Word Surge, reached 320,000 users after I licensed it to Coolmath, LLC. in February of 2020

Traveling Salesman — Educational visualization

Interactive visualization of the traveling salesman problem, animating several common heuristic algorithms.

You can view my personal projects on my web portfolio (aidanbauer.me)

SKILLS

Semi-fluent in Mandarin Chinese; studied for 7 years through middle school and high school
